-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 30 June 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

### **DETAILED ACTION**

1. This office action is in response to the amendment filed 30 June 2005, in which claims 1-17 were canceled and claims 18-38 were added.

#### ***Claim Objections***

2. Claim 27 is objected to because of the following informalities: It appears that claim 27 should depend from claim 26 instead of claim 24. Appropriate correction is required.

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 36-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Haustein (5,297,844). Haustein discloses a supporting structure (including #10) for a driver's cab of a work vehicle (best seen in figure 1), which comprises:
  - Three-dimensional support structure (including #110) with vertically extending pillars (including #114, 116, 122, 124) arranged in corners
  - The vertically extending pillars including a left-rear pillar (for example, #124) and a right-rear pillar (for example, #122)

Art Unit: 3616

- Connection member (including #128) diagonally extending between the left-rear and right-rear pillars (best seen in figure 10)
- Transverse member (for example, #130) extending between “middle portions” (for example, the cross-sectional middle portions) of the left-rear and right-rear pillars (best seen in figure 10)
- Connection member (#128) is arranged below the transverse member (#130)

5. Claims 36-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Iwasaki et al. (JP11-200417). Iwasaki et al. disclose a supporting structure for a driver's cab of a work vehicle (best seen in figures 1, 2), which comprises:

- Three-dimensional support structure (including #10) with vertically extending pillars (including #11, 11, 12, 12) arranged in corners
- The vertically extending pillars including a left-rear pillar (for example, #11 or #12) and a right-rear pillar (for example, #11 or #12)
- Connection member (including #11B) diagonally extending between the left-rear and right-rear pillars (best seen in figure 3)
- Transverse member (for example, #11A) extending between middle portions of the left-rear and right-rear pillars (best seen in figure 3)
- Connection member (#11B) is arranged below the transverse member (#11A)

***Allowable Subject Matter***

6. Claims 1-35 are allowed.

Art Unit: 3616

7. The following is a statement of reasons for the indication of allowable subject matter: the allowable subject matter of claim 1 is the connection member diagonally extending between an area adjacent of the left-front and left-rear corners and a middle area of the right pipe member, in combination with other features of claim 1. Gotz ('481) discloses a connection member diagonally extending between an area adjacent one of a left-front and left-rear corner and a middle area of a right pipe member, but this configuration is not part of Gotz's four-sided horizontal support structure for the driver's cab as set forth in the remainder of claim 1.

### ***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bonnett et al. disclose a supporting structure for a cab of a work vehicle including several diagonal connecting members on the top portion of the structure, the connecting members meeting in a central portion of the structure.

Mauws discloses a supporting structure for a cab of a work vehicle.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3616

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
